HILL'S IRISES AND PEONIES 1938

HILL IRIS AND PEONY FARM

LAFONTAINE, KANSAS

HILL'S IRISES

TERMS AND CONDITIONS

ALL IRIS orders amounting to \$1.00 or more will be shipped prepaid to any point in the United States. Iris orders of less than \$1.00 must include 15 cents for postage. Peony orders of \$3.00 or more are prepaid, those of less than \$3.00 must include 25 cents for postage. Combined orders for both Irises and Peonies should be treated as two separate orders in making allowance for postage. Foreign shipments not prepaid.

TERMS: Cash with order. Payment should be made by check or postal money order. All offers subject to prior sale; prices may be changed without notice.

GUARANTEE

WE GUARANTEE all stock to be true to name, of first class size and quality, free from diseases and pests, and to reach you in live and healthy condition. We cannot guarantee that plants will live and grow in your garden under conditions over which we have no control.

We take every precaution to prevent mistakes in filling orders, but if any mistakes should occur, we will gladly make adjustment; however, we will in no case be liable for an amount greater than the purchase price of the stock.

IRIS CULTURE

IRISES are not particular as to soil, but the bearded varieties in general prefer an alkaline rather than an acid soil. They need plenty of sunshine and good drainage and are able to withstand severe drought if well established. Beardless and crested sorts, including the Siberians and Spurias, do best in an acid soil with plenty of moisture, also some kinds need partial shade. Bearded Irises should be planted with the tops of the rhizomes level with the top of the ground, except in the case of late fall planting when they should be more deeply covered to prevent heaving. We will gladly send a leaflet giving more detailed instructions on Iris planting and care to anyone who requests it.

TIME TO PLANT

BEARDED IRISES may be transplanted any time in the spring, summer or fall, but

we strongly recommend fall planting for the South and Middle West where summers are usually hot and dry. Further North the summer months are the best time for transplanting. Unless we are otherwise instructed we will assume that our customers want immediate shipment of their orders. Prompt shipment will be made except when digging is delayed by rain or other causes over which we have no control. A few of the very newest varieties of which our stocks are limited will not be delivered before August. Beardless Irises will be shipped in the fall or early spring.

HILL'S IRISES AND PEONIES

Perhaps the most notable feature of the 1938 Iris Season is the price reduction of many of the finest Irises which will place them within reach of every gardener. Modern, large-flowered, tall, clear-colored varieties that only two or three seasons ago would have cost several dollars each may now be had for twenty-five cents each or even less.

We wish to call particular attention to the collections which will be found on following pages. These collections are designed to give a maximum of beauty, variety and economy. They are not made up of inferior unsalable varieties, but of the very finest sorts available in their respective classes.

We continue to feature Fall Blooming Irises and the many wonderful introductions of the Sass Brothers, including their famous Intermediates. Our list of Peonies will also be found in this catalog.

Favorable conditions together with our policy of making annual Iris plantings have placed our stock in excellent condition. Continued patronage from all over the country and many letters from our satisfied customers are our assurance that our strong, large, vigorous plants are appreciated. We will continue to strive to please. Thank you.

NOTE: Kansas residents will please add two per cent to their remittances to cover sales tax. Sales to residents of other states are not taxable.

SELECT IRISES

TALL BEARDED AND INTERMEDIATE

Separate lists of Standard Irises priced at \$1 per dozen, Fall Blooming Irises, Dwarfs, Pogo-Cyclus hybrids, Beardless Irises and Peonies will be found on following pages.

In the following descriptions the letter S refers to the standards or upright petals, F refers to the falls which are the lower or hanging petals. A self is an Iris of uniform color, a bicolor has standards of one color and falls of a deeper shade, a plicata is a light or white flower marked or stippled with a darker shade particularly on the margins, a variegata has falls of red, brown or red-purple and yellow standards, an amoena has white standards and colored falls, and a blend is a combination of two or more colors. Intermediates are early flowering sorts resulting from crosses between tall bearded Irises and dwarfs. The first intermediates were intermediate in size, height and season of bloom, but the newer ones are as large and tall as tall bearded varieties.

FALL BLOOMING IRISES

Fall blooming Irises bloom both spring and fall. We have thought a long growing season with ideal fall conditions necessary for re-blooming, but with the rapid spread of this group and trial by understanding gardeners over all sections including New England and some of the Northern States, we are learning that ideal growing conditions and more especially adequate moisture throughout the summer to promote rapid new growth has fully as much influence on re-blooming as the longer Southern seasons. Another important factor in encouraging the formation of fall blooms is frequent transplanting. Strong young plants have a better chance to mature the side shoots necessary for second blooms. The Sass Brothers have been pioneers in the rapid development of these re-bloomers, but other hybridizers are now making important contributions. We have many interesting seedlings of our own, and we shall continue to specialize in fall bloomers. Our customers from as far North as New England, Michigan, Illinois and Vancouver, British Columbia report fall blooms on plants grown outdoors without special protection.

AUTUMN ELF (Brown, 1935)—This variety has re-bloomed throughout the summer and fall in the originators garden in Massachusetts. Standards olive cream, domed and ruffled; falls lavender with cream edge, flaring; fragrant **\$0.50**

AUTUMN FROST (Schreiner, 1934)—A seedling of Moonlight with much the same warm white tone. It is the largest and tallest white fall bloomer **\$3.00**

AUTUMN GLEAM (H. Sass, 1934)—The earliest fall blooming yellow. Citron yellow with fine shape and substance, but high branching **\$0.50**

AUTUMN HAZE (H. Sass, 1934)—This tall fall bloomer has been both early and persistent in its long blooming habit and marks a real advance over fine old Autumn King. In effect it is an attractive soft lavender of fine form and large size **\$0.50**

AUTUMN KING (H. Sass, 1924)—The real progenitor of the race of rebloomers. Typical lavender blue bicolor of splendid form, a good seed bearer **\$0.15**

AUTUMN QUEEN (H. Sass, 1926)—The most persistent of all rebloomers, giving some bloom every month from summer to fall. It is a pure white of exceptional form, the finest white dwarf **\$0.25**

CONSTANCE SCHREINER (Mikle-McDade, 1935) — Attractive lavender violet bicolor **\$1.00**

DORCAS HUTCHESON (Sass-McDade, 1933)—An early and persistent pansy violet self. Semi-dwarf, up to 20 inches **\$0.25**

ELEANOR ROOSEVELT (Sass - McDade, 1933)—This variety was awarded the Hutcheson Gold Medal for the best fall bloomer of its year. It is a deep fluorite purple self of fine carrying power and has given us a full month of bloom in the spring and in favorable seasons three full months in the fall **\$0.25**

FRANKLIN ROOSEVELT (J. Sass, 1930)—One of two fall blooming seedlings out of more than 100 plants that J. Sass got by crossing Autumn King with Cardinal. It is a tall and beautiful mulberry violet, but quite slow in growth **\$1.00**

FROST QUEEN (Sass-Hill, 1933)—Free blooming frosty white. Sometimes produces so many blooms that the effect is a crowded bouquet of flowers **\$0.25**

GOLDEN HARVEST (J. Sass, 1930)—The first yellow fall bloomer, large flowers of fine form **\$0.50**

JEAN SIRET — One of the French remontants or everbloomers. It is only fair in quality as a yellow dwarf, but has undoubted value in its persistent re-blooming habit and strong growth **\$0.25**

LAURA HUTCHESON (Sass-Hill, 1933)—On the order of Autumn King, but a little smaller and with a decided reddish pink cast **\$0.25**

FALL BLOOMING IRIS COLLECTION

Year after year this continues our most popular collection.

See page 11 for list of Siberian Irises

LIEUT. DE CHAVAGNAC—Deep red violet dwarf, another French ever-bloomer **\$0.25**

MARTIE EVEREST (Kirk., 1935)—Fine tall blue, a reliable repeater **\$1.00**

OCTOBER BLAZE (McDade, 1935)—Large red-purple, somewhat on the order of Indian Chief, late **\$2.00**

OCTOBER OPERA—(Sass-Hill, 1932)—Gave its first fall bloom in our garden. Its red tones are similar to the old favorite Opera, large and of good form **\$0.50**

SANGREAL (J. Sass, 1935) — A fine new chrome and citron yellow fall bloomer, orange beard, 28-inch stems **\$1.00**

SEPTEMBER SKIES (Sass-Hill, 1933)—A deep red-purple self that blooms freely in the spring, but not so freely in the fall except in the South where it is practically an everbloomer **\$0.15**

SOUND MONEY (J. Sass, 1934)—A fine yellow pumilla that reblooms on 10- to 12-inch stems **\$0.25**

SOUTHLAND (H. Sass, 1934) — The finest yellow fall bloomer and unusually valuable because it is also one of the very best bright golden yellow spring bloomers, vigorous and strong. An Iris possessing all these splendid qualities is assured of great popularity **\$1.00**

ULTRA (H. Sass, 1929)—Fine ultramarine blue bicolor, grows up to 22 inches and carries two to three flowers on graceful stems, so popular that demand always exceeds the supply **\$0.15**

WHITE AUTUMN KING (H. Sass, 1935)—Strong growing erect flowers of pure white color and beautiful finish, blooms freely in the fall **\$0.25**

SASS SEEDLING 29-26 (J. Sass)—This sister seedling to Franklin Roosevelt is a large and tall lavender blue of good form, valuable for hybridizing **\$0.25**

We also have a number of other valuable Sass seedlings.

DWARF BEARDED IRISES

The dwarf group is becoming more useful and popular as new and improved varieties are added. Somewhat taller sorts with several blooms to the stem and table Irises noted for their small graceful flowers are being developed. The season of bloom has also been made longer and extended into the tall bearded season. The dwarfs are ideal for borders and rock gardens. Give them the same treatment as tall bearded sorts.

ATROVIOLACEA—The very earliest, often blooms through the winter. Dark purple, 4-inch (10 for 25c) **\$0.05**

AZUREA—Early bright sky blue **\$0.10**

FAIRY—Taller sky blue with purple markings (10 for 40c) **\$0.10**

DIXMUIDE—Saniline blue, F rich crimson purple **\$0.15**

ENDYMION—Fine rich claret of neat form **\$0.25**

GLEE—Pale yellow with tall narrow standards **\$0.15**

LADDIE BOY (Sass)—Velvety deep blue with three flowers to the stem **\$0.15**

MAROCAIN—One of the finest deep violet blues (10 for 50c) **\$0.10**

NEGUS—Bright dark violet with white markings (10 for 40c) **\$0.10**

PUCK (Sass)—Free flowering new reddish purple **\$0.25**

REFLECTION—A larger sky blue Azurea **\$0.15**

REICHENBACHII ORANGE—Bright yellow Balkan species **\$0.15**

ROSE MIST (Sass)—Soft mauve pink, unusual color **\$0.25**

SNOW MAIDEN—Striking pure white dwarf **\$0.25**

STATELLAE—Creamy white and pale primrose, 12-inch **\$0.10**

TITANIA (Sass)—Clear deep buttercup yellow, large **\$0.15**

TONY (Sass)—Very free flowering rich red-purple (10 for 40c) **\$0.10**

YELLOW FRILLS (Hill)—This has proven our best yellow dwarf, produces many frilled flowers, 10-inch stems **\$0.15**

HILL'S PEONIES

PEONIES

Peonies offered in this list are varieties of proven merit and quality. Prices are for standard three- to five-eye divisions guaranteed true to name. Delivery of Peonies will begin in late September and continue until freezing weather. All orders will be acknowledged and filled in the order in which they are received. Peony orders amounting to \$3 or more will be shipped by prepaid parcel post or express, whichever is cheaper. Orders for less than \$3 must include 25 cents for postage.

Peonies do best in rich soil. Use fertilizer or well rotted manure if your soil needs it, but do not allow fertilizer to come in direct contact with the roots. Peonies are shipped in damp moss, but they should be soaked in water for a few hours before planting. In planting, be careful not to cover the roots too deep; the eyes or buds should not be covered more than two inches. All plants will be carefully labeled and packed.

IRIS SUNNY DAY (Spuria Group)

Sunny Day, pictured above, is one of the outstanding beardless varieties of the Spuria group. Its rich, deep, golden yellow color is unsurpassed. The distinctive form of the Spuria flowers and their tall, erect, sword-like foliage make them very attractive in the garden. The blooms have heavy substance and are fine cut flowers. Spurias are very vigorous and hardy, and while they do best in moist locations, they will grow well without watering. Our plants have survived even the most severe droughts in good condition. We predict immense popularity for the newer Spurias as soon as they are well known.

We will send one plant of Sunny Day and one Shelford Giant, creamy yellow with darker yellow circle on the falls, for \$1 postpaid. Shelford Giant is very tall, growing up to five feet. These and other Spurias listed on page 11 will be shipped in the fall.

From a Few of Our Satisfied Customers

Watertown, Mass.
June 28, 1937

Enclosed is an order for Iris. Regarding my order sent you in April, you will be interested to know how well the plants have done. I ordered all the pogo-cyclus Iris you list and only three failed to bloom. Of the fifteen intermediates planted at the same time at least a dozen bloomed and most of them had several flowers. This speaks very well for the strong plants you sent and I am very pleased.

I was very much pleased with the Irises. Such good strong plants and so many extras.

Petersburg, Ind.
Nov. 5, 1937

Thanks for the catalog and for the very high quality Peonies received recently in the two orders.

Creston, Iowa
Aug. 25, 1937

The Iris arrived today and I am going to tell you the truth in plain words. I have been buying Iris and Peonies for the past 16 years, but have never received a shipment that was as nice as the one you mailed me; and am more than grateful to you for the many extras.

Chillicothe, Ohio

Your Iris arrived this afternoon in perfect condition. Thank you for the generous clumps and extras.

Chicago, Ill.
Dec. 7, 1937

I wish to express my appreciation for the prompt and courteous service I received from you last month, when I sent you an order for some Peonies. I was very pleased with the condition of the plants when they arrived and the clumps were healthy and generous as to size. I have told my friends of the kind of service you give, and no doubt we will have further dealings.

Just a few lines to let you know that the Iris I got from you last summer are blooming now. It surely is a pleasure to do business with you and I want you to put me on your list to send me your new catalog as soon as it is issued.

New Haven, Conn.
July 17, 1937

I thank you for the Iris stock which you sent so promptly, and which has been in my garden long enough to show growth. The rhizomes were, as always in my experience with you, well selected for size and soundness. In spite of the hot weather they arrived in uniformly good condition. May I express appreciation also for your generous inclusion of extras and multiple roots. Altogether this shipment bears out my expectation of competent, generous treatment at your hands.
